Subject: [External] Re: 2019-331-E letter and motion

To whom it may concern,

Still awaiting a response, 21 days and counting. Is a motion to dismiss hearing being considered by a fair and impartial commission? To all parties of record, please read the letter attached, the points addressed are why it is necessary for a motion to dismiss hearing. If this request is being considered by the same commission I have motioned to recuse (please read previous filings) , is this the "conclusion" ?

Enrique
